IPPL
Expertise Meets Execution

Company Overview

We help businesses get engineering easy. Back when IPPL launched in 2008, many companies in industrial engineering services were providing access to solutions over the period of project timeline.

What those companies didn't provide, however, was customer service. Except for us. We were a tiny player back then looking for a way to differentiate ourselves — to serve businesses better than other competitors did.

We began providing end-to-end customer service even after project timeline ending. And as more and more customers recommended us, we quickly came to lead that industry. What began as the idea of a person has now become a global company with business customers spreading across continents.

2008

Established

IPPL
Expertise Meets Execution

Vision & Mission

Our Vision

We strive to be a pioneer in the field of industrial engineering, developing innovative solutions that address the evolving needs of industries across various sectors. Our vision is to empower businesses to optimize their processes, enhance productivity, and drive sustainable growth by harnessing the power of automation.

Our Mission

Deliver end-to-end engineering solutions with innovation, reliability, and customer-centric service.

IPPL
Expertise Meets Execution

Industries we serve

- Food & Beverage
- Dairy & Edible Oil
- Pharmaceuticals
- Oil & Gas
- Health & Cosmetics
- Paint

IPPL
Expertise Meets Execution

Our Services

Turnkey Solutions

We deliver comprehensive turnkey solutions that make equipment installation effortless for our clients.

Machinery Programming

Our team delivers advanced automation and electrical solutions, from PLC programming to control systems, enabling smarter and more reliable operations.

Line Relocation

Our experts specialize in seamless line relocations, offering tailored solutions. We ensure smooth transitions during equipment moves, system expansions, and complex installations with precision and efficiency.

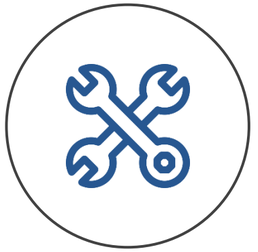
Our Services

Panel Designing

From machinery setup to electrical integration, we offer end-to-end services that ensure your plant operates safely and efficiently.

Robotic Applications

We provide tailored solutions to reduce downtime and keep your production lines running at maximum efficiency, ensuring higher output and consistent performance.



AMCs

With structured preventive care and rapid corrective action, we help you avoid costly breakdowns while extending the life and performance of your equipment.

Turnkey Solutions

We provide seamless end-to-end installation of industrial systems, ensuring you move from setup to production with confidence.

What We Do

- Factory Acceptance Testing (FAT) & on-site commissioning
- Unloading, positioning & utilities integration
- Power-up, startup, and production ramp-up support
- Line audits, relocation & reinstallation

Why It Matters

- Rapid project delivery with minimal downtime
- Smooth transitions for new and existing facilities
- Reliable performance from day one

IPPL
Expertise Meets Execution

Engineering & Design

What We Do

- Complete plant layouts & civil/electrical integration
- Process & utilities piping system design
- Panel and control system design
- Automation solutions (PLC, SCADA, robotics)
- IT application integration for smart plants

Why It Matters

- Optimized workflows for maximum efficiency
- Global-standard compliance and safety
- Scalable designs to support long-term growth

Our team designs smart, efficient, and future-ready plants that combine reliability with innovation.

Line Relocation

We breathe new life into aging equipment, extending performance while reducing costs.

What We Do

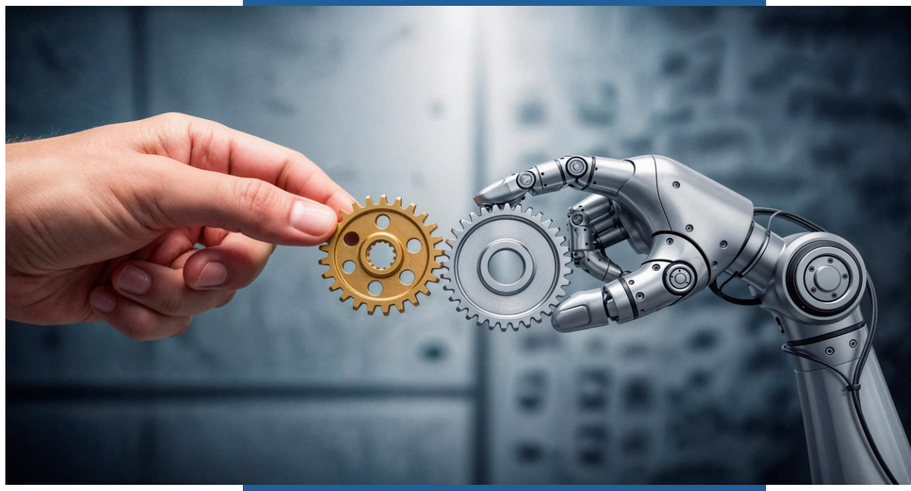
- Inspection & Technical Audits for smooth line relocation.
- De-assembly, Rewiring & PLC Upgrades during relocation.
- Replacement of Valves, Pneumatic Systems & Controls for optimal performance.
- Power-Saving Retrofits & Modernizations during line moves.

Why It Matters

- Extend equipment lifecycle
- Save capital expenditure vs. new purchases
- Improve productivity, safety, and compliance

IPPL
Expertise Meets Execution

Automation Solutions



We integrate cutting-edge automation to help businesses achieve precision, speed, and scalability.

What We Do

- Robotic welding applications
- Pick & place automation
- Robotic painting & finishing solutions
- Smart packaging & material handling

Why It Matters

- Consistent quality with reduced human error
- Faster production and higher throughput
- Future-proof automation for global competitiveness

IPPL
Expertise Meets Execution

Preventive Care (AMCs)

What We Do

- Preventive & predictive maintenance planning
- SOP development & operator training
- Spare parts auditing & management
- PLC/HMI backups & system monitoring
- Safety audits & emergency support

Why It Matters

- Maximize uptime and efficiency
- Reduce repair costs and downtime risks
- Extend equipment performance lifespan

We ensure your equipment runs safely, reliably, and without unexpected breakdowns.

Sales Support & Talent Solutions

What We Do

- Research-driven sales talent acquisition
- Dedicated OEM-aligned sales executives
- 2-year contractual workforce support
- Option to absorb trained talent into OEM teams

Why It Matters

- Faster market penetration
- Cost-effective workforce scaling
- Trusted sales partnerships for long-term growth

We partner with OEMs to deliver specialized sales and workforce solutions that drive growth.

Company History

2009 – 2014

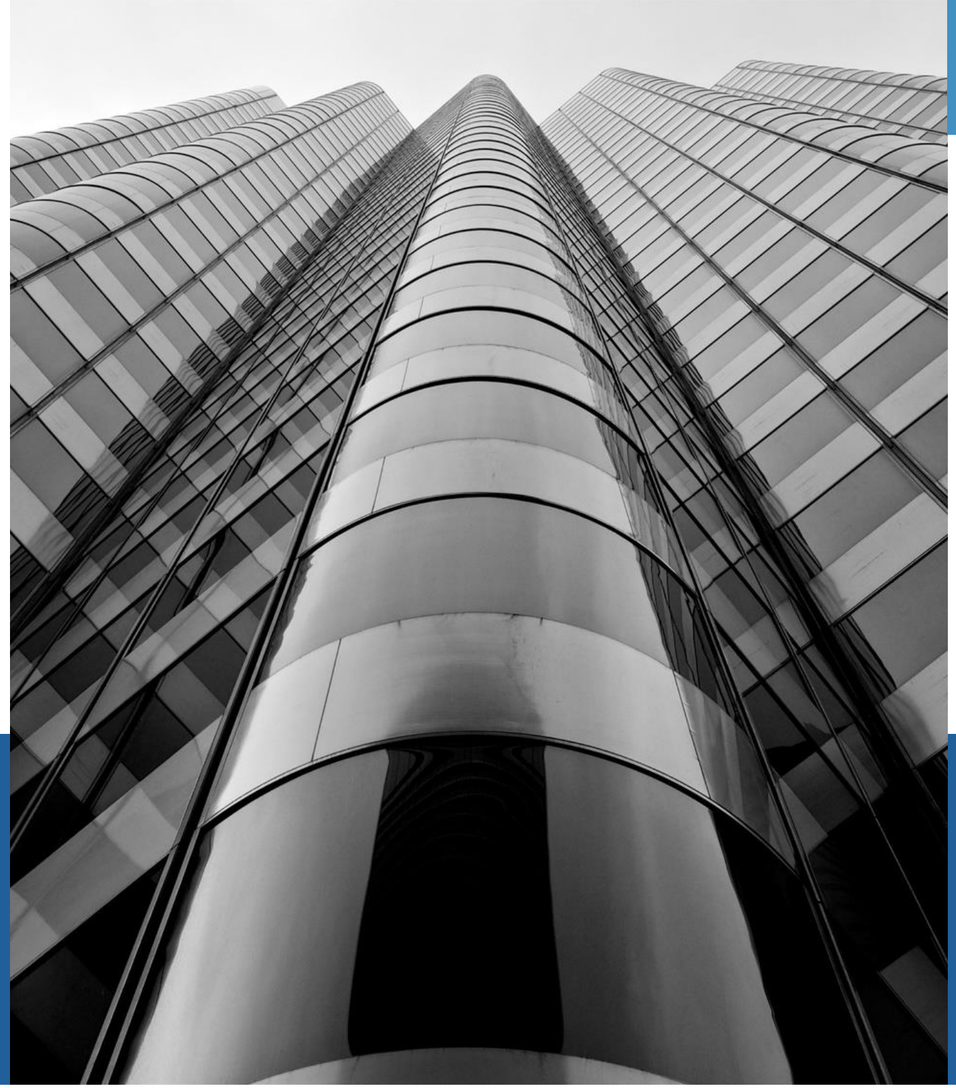
Founded in Delhi with a 3-member engineering team in 2009. Expanded services to full turnkey engineering solutions.

2015 - 2020

Achieved $1.8M turnover milestone. Team strength reached 50+ engineers.

2021 - Now

Global expansion with a branch in Kenya, Africa, supporting projects across the continent.



IPPL
Expertise Meets Execution

Global Expansion

New Markets

Serving markets across the India, Bangladesh, Nepal, Sri Lanka, Bhutan, Europe and Africa.
